Co Extrusion Technology

Technical Information

Dimensions	1820 x 225mm	Finish/Gloss	Matte
Total Thickness	9.7mm	Guarantee	30 years domestic, 15 years commercial
Core Thickness	7.0mm	Profile Edge	Micro Bevel
Wear Layer	0.7mm	Classification	Rigid Core
Backing	EVA 2.0mm	Core	Co Extrusion Technology
Box Quantity	1.638sqm, 4 planks per box	Colours	10
		Installation	5G Click

Performance

	Standard	Result
Reaction to Fire	EN ISO 9239-1:2010	10.5km/sqm, 298.2% minimum smoke
Slip Resistance	BS7976-2:2002+A1:2013	PTV Dry: 56 PTV Wet: 35
Staining Resistance	ISO26987:2008	0 not affected
Colour Fastness	ISO105-B02:2014 method 3	Grade 6
Abrasion Resistance	EN660-2:1999+A1 and EN649:2011	Wear Group T
Dimensional Stability		
Thermal Conductivity		
Thermal Resistance		
Acoustic Reduction	ISO10140-1:2016	Lw = 20db (delta IIC)
Adhesive	none- 5G click system	
Recycling	n/a	
Environmental	Green Building Council Compliant for VOC	
Swell Test		

Why should you choose Resiplank boards

Water-Proof

Rigid Core is 100% water proof and stands up to all spills and can be installed in wet areas such as bathrooms.

Compatible with Underfloor Heating

When used in conjunction with the installation instructions.

Low Maintenance

Our surface coating technology ensures no need for additional surface treatments following installation.

Comfort

Softer and warmer under foot than natural wood or stone flooring. Additional cushioning in the backing helps make Rigid Core extremely comfortable even to sensitive feet.

Environmentally Conscious

Being 100% physically, energetically and chemically recyclable or re-usable.

Pet Friendly

From muddy paws to 'accidents' - Rigid Core repels anything your pet can throw at it, making life much easier.

Acoustic Qualities

Excellent noise reduction properties and does not require additional underlay. Industry, leading, 6 star rated.

Easy to install

RigidCore has been made with the best click system in the world 5G.

Durable

Rigid Core boards are extremely hard wearing and have HIGH IMPACT RESISTANCE, unlike wood or stone, Rigid Core wont splinter, warp or crack.

Lifetime Warranty

Backed by a Lifetime Structural Warranty - that's how sure we are of Rigid Core's abilities.

Quick and Easy to Install

All you need is a level, smooth, dry and dust-free subfloor. Rigid Core can be fitted over most existing hard floor.
