Life Style Range (Engineered Oak)

Our widest range of engineered oak flooring.

Origins

Premium Range (French Engineered Oak)

Your sophisticated choice of unique luxury French oaks.

LinWood

LinWood is the way to have a real timber floor for less financial outlay and still get a 20+ year lifespan. LinWood's top layer (lamallea) is a high grade European Oak made from a species of oak which will provide high durability. The result? A floor that is more economical and uses less natural resources while maintaining long term performance. That's what you get when using the best materials available.

10 modern colours lend themselves to any style of home or décor. LinWood's timber surface is graded specifically to achieve a classical and clean look.

Surface finishing is what gives a floor its beauty. LinWood's advanced surface techniques include wire brushing, smoking of the natural tannins, perma-colour stains and world leading German Klumpp clear coatings. There is a dynamic range of 10 colours- something for every space and décor.

LakeWood

Inspired by our passion to produce beautiful flooring, our ranges have been sourced from managed forests throughout Australia, Southeast Asia and Europe.

Terra Mater's mission arises from our passion for wood and timber - to bring our customers superior quality flooring, from the forest floor and the environment.

02

The best materials available

Our premium grade European Oak comes from managed forests and is milled to meet our stringent grading requirements. Our factory uses the latest German machinery to produce precision engineered flooring that will stand the test of time.

LakeWood Oak prides itself on its 9 coats of German Klumpp coating leaving you with an extreme matt finish. Our special invisible UV lacquer makes you feel like you are walking directly on the natural wood, while still possessing the durability and cleanability of a highly polished floor.

The glue used to bond the European Oak to the Hardwood core is supplied by Swedish producer Dynea for superior bond strength, to not only comply but, to exceed stringent emissions regulations for off gassing of VOCs (volatile organic compounds) and is fully verified by Australian test certification to back our quality and eco friendly products.

Terra Mater production and laboratory quality assurance teams are on-site 24 hours a day at our factories where they tightly control all production runs. Strict implementation of stringent standards and fine tolerances during all phases of production ensure that we maintain consistency of quality standards across all Terra Mater products.

PRESTIGE

The best of the best; only select graded timber from premium grade logs is chosen for Wild Oak.

NATURAL BEAUTY

The advanced invisible UV lacquers create a natural look that will retain your floors for years to come.

CONVENIENCE

With advanced anti-static Klumpp coatings, our floors maintain a superior cleanability that save you time and effort.

GOOD TO THE PLANET

Our select timber is sourced only from managed plantation forests and emits incredibly low VOC emissions.

Origins

The evolution and culmination of rich centuries old wood and hand crafting mastery, Wild Oak Origins takes you from the cradle of French Oak flooring to the dynamic, timeless look and performance of technological prowess. Origins takes old world strength and beauty and applies the latest manufacturing, colouring and texturing techniques to deliver an uncompromising floor. Origins is not just a floor - it is a deep statement about our passion for fashion and décor.

Our love of nature and enhancing that inherent strength and beauty for you.

Terra Mater believes that every company has a duty to be responsible to the environment and to you, our customer.

French Oak

Proven Results

10x Designer Colours

Good to the Planet

Casco Glue

There are a few distinct qualities that set French Oak apart from oak sourced out of Eastern Europe, China and America.

One inherent difference is that the tannin content is much higher in French Oak than all other oak. Tannin is a substance made from the polyphenolic compounds that are found in the wood. The high content of tannin means that our reactive stain technology is far more effective in achieving a subtle reaction with the wood resulting in different tones and colours that cannot be found in other oak.

French Oak Superiority over Eastern European Oak, American White Oak and Chinese Honey Oak:

- Higher tannin content for reactive stains fuming and ageing.
- Tighter grain structure producing a more dense timber suitable for flooring.
- More stable raw material suitable for Australia's harsh climate.

Warranty Conditions

Warranty Conditions:

- Installation - is installed in strict accordance with current written installation instructions
- Wet Areas - is not suitable for installation in bathrooms, saunas, laundries or any other area in which high levels of steam and moisture are present.
- Maintenance - Care guidelines must be adhered to.
- Non-Assignment - the warranty is limited to the original purchaser and may not be assigned or transferred.

Lifetime Structural Warranty:

The manufacturer warrants its product from structural defects, delamination, cracking, warping, twisting or any other forms of structural deformation at the time of supply.

Installation instructions must be adhered to so that this warranty applies. Please ask your retailer for these guidelines.

Exposure to excessive moisture caused in any way whatsoever such as flooding, spills, leaks, excessive wet mopping, steam mops, subfloor moisture or heating may cause distortion within the board and will not be covered by this warranty.

Care should be taken to maintain even indoor humidity and temperature with good ventilation. Excessive heat, dryness or exposure to direct sunlight will cause damage to the goods and is considered negligence and is not covered by this warranty.

20 Year Domestic Limited Surface Warranty

5 Year Commercial Limited Surface Warranty

From the date of purchase, the manufacturer warrants to the original purchaser only, that under normal domestic conditions of use the surface will not wear through, during this period warranted.

With proper maintenance, the goods will perform under normal household conditions. Scratches, dents, reduction of gloss (appearance reduction), damage caused by negligence, urine, animals or high-heeled shoes. These are not considered a defect and therefore not covered by this warranty.

All furniture requires felt to be adhered to the underneath to protect the surface of your floor, from time to time this will need to be maintained and checked for wear.

A written notice must be received by the supplier within 30 days of discovery of any defect to be found, along with proof of purchase (date) the identity of wholesaler or retailer and the location of installation.

The supplier will acknowledge within 30 days the receipt of written notice and must be given the opportunity to inspect the floor prior to any repair or replacement is to take place.

Warranty Exclusions:

Terra Mater for the purpose of this warranty will be referred to as 'the supplier' Breach of Warranty Conditions - any breach of warranty conditions will void the warranty.

Colour Variation - oak is a natural product and colour variation will occur between samples and what the supplier has delivered and installed. Samples displayed or provided are indicative only and within normal industry standards, and no warranty is given that such samples will match the floor installed. Other variations will naturally occur such as small knots and grain variation. These variations normally present in oak, are not considered defects and will not form the basis of any claim under warranty.

Oak may also experience some surface checking (hairline cracks) this too is part of all natural products and not covered by warranty.

Subfloor Heating - Terra Mater is suitable for installation over subfloor heating. However specific installation instructions must be followed or the warranty will be voided.

Extreme Conditions - as oak is a natural product, the humidity level in the home must be in the 30% - 75% range throughout the year, using dehumidifiers or humidifiers as appropriate.

Misuse - the warranty does not extend to damage caused by moisture penetration through the subfloor, other flooding, leaking, plumbing, overflowing, hydrostatic pressure or any other water damage.

Alterations - where floor or subflooring has been altered, repaired, resurfaced or replaced no warranty will apply except to the extent implied by law.

Insect Infestation - the supplier warrants that it sells oak flooring free of insect infestation, this warranty does not cover any insect infestation occurring after the product has been sold.
